## **SELITPRO 2.2 mm AquaStop awarded as "Innovation"**

**The SELITPRO 2.2 mm AquaStop with TwinFoam technology was awarded by an expert jury as "innovations@DOMOTEX"**

After SELITstop® comfort damp-proofing and SELITBLOC® underlay for vinyl click flooring had been awarded by an expert jury as innovations@DOMOTEX at the DOMOTEX 2015, the SELITPRO 2.2 mm AquaStop with TwinFoam technology will get this honour at the DOMOTEX 2016. The combination of the innovative TwinFoam hybrid foam together with the installation features convinced the DOMOTEX expert jury.

The product will be presented in a special area in Hall 9 in Hanover in January 2016. There you can receive additional information on this innovation.

At the SELIT booth in Hall 7, the corresponding product will be marked with an "innovations@DOMOTEX" sign, so that a direct assignment will be possible for all visitors.

SELIT is proud to receive the second consecutive award for a product. This shows SELIT's innovative way of constantly developing underlayments.
